

## **Phishing Alert: April 29, 2010**

This morning, we have had reports of members receiving a call from an automated machine stating that their Visa Debit Card has been closed. The system then asks the member to enter their card number to activate a new card order. These calls are NOT coming from Georgia's Own and you should NEVER reveal your card number, either verbally or through your phone's keypad, in a phone call that you did not initiate.

The fraudulent phone calls are coming from 801-804-7064 and 770-905-0036, but there may be others. If you receive such a call, please note the incoming number and contact our Member Services Department immediately by calling 404.874.1166 (800.533.2062).
